

AIMS & OBJECTIVE OF NATIONAL INSTITUTE OF SIDDHA

(Deemed to be University)

National Institute of Siddha is an apex Institute under the Ministry of AYUSH, Government of India for promoting the growth and development of Siddha system of medicine. It is evolved as a model Institute for setting high standards of teaching, research, health care and also to invoke scientific rationale to Siddha system of health care.

This Institute was established in the year 2005 by the Government of India. This is the only national level Institute in India offering Post graduate education in Siddha system of medicine. After its establishment this Institute is growing steadily in the field of academic, research and health care. This Institute broadened its PG courses and introduced Ph.D programme for Siddha post graduates. It is continuously engaged in promoting reforms and developments in Siddha system of health care at National level. It is both an educational institute that imparts the best medical training knowledge to its Postgraduate students, and one of the best, Siddha hospitals that provide free but excellent medical care to a vast number of patients.

AIM

National Institute of Siddha aims to provide a high-quality and fine learning environment for the scholars who undertake the education and research programmes provided by it. This institute aims to develop patterns of teaching in post graduate medical education to demonstrate high standard of medical education in Siddha system of medicine. It seeks to be a model for health systems in Siddha through innovations in education, patient-oriented research, society outreach activities, health, and service excellence. Its objective is to develop compassionate, ethically sound, and skillful Siddha professionals and provide medical service of the highest order across the healthcare continuum.

OBJECTIVE
